

Coloured Toilet Seats

Available
in Red,
Anthracite
and Blue

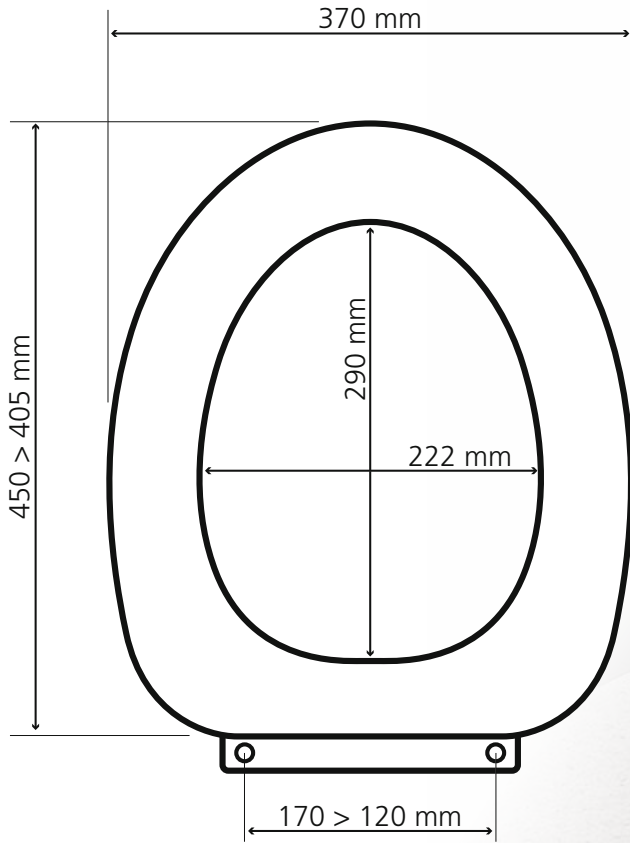

A range of Dania plastic toilet seats available in a variety of colours, ideally suited to dementia patients. Fitted onto any standard toilet pan to replace the standard seat, these colourful seats help to provide a colour contrast with the white pan or wall for people with dementia or vision impairment.

Contrast is accepted as one of the most important aspects in a dementia care support environment, and these coloured toilet seats can help people to more easily locate the toilet.

These ergonomically designed toilet seats are compatible with most toilet pans and suited to most users. The flat-shaped seat facilitates easier sideways transfer for wheelchair users. The contoured toilet lid is comfortable to sit on when the toilet is not in use, and acts as a backrest when upright.

Available in three colours, with option for seat and lid or seat only.
