

# Orientation Clocks

A range of highly visible and easy to read clocks, aimed to assist dementia sufferers and those with cognitive impairment. Memory loss is often the first symptom to appear in someone suffering from dementia or other

cognitive impairment. Use of orientation clocks may assist with this problem. These devices are suited to people with varying degrees of cognitive impairment with the need to be reminded of the day, time or date. RAP BF01

## Calendar Clock

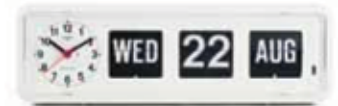

Features a large analogue clock-face and large day/date calendar that is easy to read up to 15 metres away. With reliable German movement, the automatic calendar function self-adjusts for leap years. Unlike many LCD clocks, the flip card display remains readable under fluorescent lighting.

CODE	EDBQ12
DIMENSIONS	H 380mm W 300mm D 75mm
CHARACTER HEIGHT	35mm
WEIGHT	1.2kg
BATTERY	1 x AA battery (included)
WARRANTY	1 year

## Calendar Clock, Automatic

This compact yet stylish calendar clock is popular for any room of the home. Can be wall mounted or used freestanding.

Features reliable German movement and an automatic calendar function that self-adjusts for leap years. The flip card display remains readable under fluorescent lighting.
